

# SLIMLINE LITE II™ KVM SWITCHES

Control Multiple Computers with One Rack Mount Display/Keyboard/Trackball Device

A popular option for General Digital's SlimLine Lite II Series of rack drawer flip-up monitor/keyboards is an integrated **KVM switch**. This gives the end user the ability to connect to—and control—multiple computers, using just one device.

The SlimLine Lite II is a robust monitor/keyboard, intended for use in military and industrial applications, either in a rack-mount or desktop configuration.

General Digital can provide many types of KVM switches that will integrate perfectly with your SlimLine Lite II

## FEATURES

- ▶ Display sizes from 15.0" to 20.1" with resolutions up to 1920 x 1080
- ▶ Multiple KVM switch ports allows for control of several computers from a single device
- ▶ VGA, DVI-D, Composite, HDMI, DisplayPort and other video inputs available
- ▶ Low profile occupies only 2U (3.50") of rack space
- ▶ Rugged aluminum construction with durable finish is designed to be in compliance with MIL-DTL-901, MIL-STD-810, MIL-STD-167 and more
- ▶ Designed, manufactured and serviced in the USA

## OPTIONS

- ▶ Compliance with radiated and conducted EMI requirements (e.g., MIL-STD-461, TEMPEST)
- ▶ Sunlight readable and MIL-STD-3009 NVIS-compatible display backlights
- ▶ Keyboard/trackball options: military and industrial grades, environmental sealing, colored keycaps and backlights, custom firmware
- ▶ Solid-bearing, locking slides for mounting directly to EIA-310 RETMA 19" racks
- ▶ Power supplies, DC-DC converters
- ▶ Extended warranties

# SLIMLINE LITE II™ KVM SWITCHES
